CUSTOM MEASUREMENT FORM

INSTRUCTIONS

Read these instructions through before starting. Have a tape measure (the kind used for measuring clothes, not lumber!) and a pencil and your nearly naked subject in the same room (as few clothes as possible). Best if measurements are taken in the bathing suit to be worn under wetsuit. All measurements are taken snug, but not tight. No muscle flexing or sucked-in tummies and please keep your back straight and your head level during measuring. Measure to the nearest 1/4" marking. Measurements should be taken by friend or family member. Please do not measure yourself.

Follow the sequence on the drawings and take your time, you'll do fine.
